Directory Of Veterinarians For Exotic Small Mammals

Need a veterinarian for your small animal pet, including ferrets, rabbits, guinea pigs, chinchillas, hamsters and more? Then check out this listing compiled by the editors of Critters USA magazine.

This list of veterinarians is arranged alphabetically by state, then by city. The information in the listing was submitted by the veterinarians. Inclusion in this listing does not constitute an endorsement by Critters USA magazine or SmallAnimalChannel. Exercise your usual caution as a consumer before choosing any veterinarian. Before taking a skunk or other exotic animal that may be illegal to own in your area to any vet, call the vet first. Ask if the animal can be treated by that office or if any legal issues might prevent treatment.

Key to animal species abbreviations: Chin = chinchilla, Fer = ferret, FlyS = flying squirrel, Ger = gerbil, GP = guinea pig, Ham = hamster, Hedg = hedgehog, Mice = mouse, PB Pig = pot-bellied pig, Rab = rabbit, Rat = rat, STO = short-tailed opossum, Sku = skunk, Sugar = sugar glider. Calling All Vets!

Do you want your practice included in this list, or do you need information on the list updated? Let us know. For details, click here>>
